

PROCON Heavy Duty Connectors

Enclosures designed for reliable and durable connections

Industrial multi-pin heavy duty connectors specifically designed to transmit power, data and signal in tough environmental conditions. PROCON, a Plug & Play interconnect, allows for modularity when shipping multi-piece equipment.

+1 (800) 925-8437

APPLICATIONS: subunits of injection molding machines like heater, fan, control terminals, industrial lightning, small drives, vibratory conveyors, connections inside cabinets and much more
