The appearance of a company's name or product in this database does not in itself assure that products so identified have been manufactured under UL's Follow-Up Service. Only those products bearing the UL Mark should be considered to be Certified and covered under UL's Follow-Up Service. Always look for the Mark on the product.

UL permits the reproduction of the material contained in the Online Certification Directory subject to the following conditions: 1. The Guide Information, Assemblies, Constructions, Designs, Systems, and/or Certifications (files) must be presented in their entirety and in a non-misleading manner, without any manipulation of the data (or drawings). 2. The statement "Reprinted from the Online Certifications Directory with permission from UL" must appear adjacent to the extracted material. In addition, the reprinted material must include a copyright notice in the following format: "© 2020 UL LLC"

## Wiring Harnesses Certified for Canada - Component

The devices covered under this category are incomplete in certain constructional features or restricted in performance capabilities and are intended for use as components of complete equipment submitted for investigation rather than for direct separate installation in the field. THE FINAL ACCEPTANCE OF THE COMPONENT IS DEPENDENT UPON ITS INSTALLATION AND USE IN COMPLETE EQUIPMENT SUBMITTED TO UL.

### GENERAL

This category covers wiring harnesses, which are assemblies consisting of various numbers, sizes and types of wire and/or flexible cord, with or without additional components such as terminals, connectors, attachment plugs and splices. These assemblies are designed and intended to be installed as components of specific equipment or appliances.

A wiring harness consists of an assembly of parts included to make up parts, or all of the wiring of a single appliance. It is not intended that a complete product, such as a portable lamp, be covered as a wiring harness.

Each wiring harness is normally constructed in accordance with a harness diagram and is generally designed for a specific application which is indicated on the diagram or carton Marking.

The wiring harnesses covered under this category are intended solely as factory-installed components of other equipment where acceptability is to be determined by UL.

### REQUIREMENTS

CSA-C22.2 No. 21, "Cord Sets and Power-Supply Cords"

CSA-C22.2 No. 42, "General Use Receptacles, Attachment Plugs, and Similar Wiring Devices"

CSA-C22.2 No. 65, "Wire Connectors"

CSA-C22.2 No. 153, "Quick-Connect Terminals"

CSA-C22.2 No. 182.1, "Plugs, Receptacles, and Cable Connectors of the Pin and Sleeve Type"

CSA-C22.2 No. 182.2, "Industrial Locking Type, Special Use Attachment Plugs, Receptacles, and Connectors"

Attachment Plugs, Receptacles and Connectors

CSA-C22.2 No. 182.3, "Special Use Attachment Plugs, Receptacles, and Connectors"

### UL MARKING

The Recognition Mark of UL (shown below) on the smallest bundle or unit container in which the product is packaged is the only method provided by UL to identify these products manufactured under its Recognition and Follow-Up Service.

### WIRING HARNESS
