

ROBUST, SOLID-RUBBER CABLE BRIDGES

PART NO: 39870080

FEATURES AND BENEFITS

- SBR / NBR rubber material
- Axle load 0.2 t / 9 t
- Non-slip surface
- Can be extended indefinitely
- High self-weight, very stable coating,
- Non-conductive and up to 110 kV of dielectric strength
- Resistant to acids and alkalis, UV and heat resistant

Specifications	
Number of channels	Two
Integrated connector	Yes
COLOR	BLACK / YELLOW
Channels size	(2x) 3.15" x 3.15" OR 80MM x 80mm
Dimensions	L 31.5" W 23.23" H 4.13" OR L 800MM X W 590MM X H 105MM
Weight	60 lbs.

DESCRIPTION:

A cable raceway or cable bridge is an enclosed conduit that forms a physical pathway for electrical wiring. Cable Raceways protect wires and cables from heat, humidity, corrosion, water intrusion and general physical threats. Made from heavy-duty SNR/NBR rubber, our cable protectors can withstand a load capacity of up to 9 tons and truck traffic at a max speed of 6 m/h ensuring cables remain safely housed against heavy volumes of vehicle or pedestrian traffic. Perfect for construction sites, entertainment, manufacturing or anywhere you need temporary power distribution.
